

The **Series** of closer gets you in the ballpark of a general closer type

Series	Description	Notes
DC3000	Universal Closer - most popular C/R closer	Order model DC3210
DC4000	Designed for aluminum storefront doors	Specify spring size when ordering
DC6000	Heavy Duty Universal Closer	Order Model DC6210

- DC3000 - Has only one model in the series (DC3210)
- DC4000 - Has many models since you must note spring size as part of model (4603, 4604, etc.)
- DC6000 - Has only one model in the series (DC6210)

	<p>DC3210</p>	<p>Corbin Russwin DC3210</p>  <p>Holes are for Quick-Mount bracket</p>
	<p>DC4600</p>	<p>Corbin Russwin DC4602 - 4605</p>  <p>Note: same as Norton's 1601</p>
	<p>DC6210</p>	<p>Corbin Russwin DC6210</p>  <p>Holes are for Quick-Mount bracket</p>

All Corbin Russwin closers begin with the "**DC**" designation, which merely stands for Door Closer.

DC3210 is a fully adjustable closer that meets ADA requirements. It is the most popular model sold.

The DC6210 is nearly identical to the DC3210, it is just heavier duty. The two models use the same Quick Mount bracket.

The DC4600 is designed for aluminum storefront doors, but can also be used on other low to medium traffic doors.
